Leyla Mammadova

Data Analyst at Northwind Bank | SQL, Power BI and Python | Helping retail teams turn customer data into weekly decisions
Baku, Azerbaijan

Summary

I started in retail operations and moved into analytics after automating the weekly sales report for my team. Today I work with customer, branch and product data to answer practical questions for commercial teams.

I enjoy writing clear SQL, building dashboards people actually open, and explaining the limits of the data. I am now looking for a role where analysis feeds product decisions directly.

Experience

Northwind Bank
3 years 2 months

Senior Data Analyst
March 2024 - Present (1 year 8 months)
Baku, Azerbaijan
• Built the branch performance dashboard in Power BI used in the weekly regional review.
• Rewrote the customer churn queries in SQL, reducing the monthly refresh from four hours to forty minutes.
• Mentored two junior analysts on query review and documentation.

Data Analyst
September 2022 - February 2024 (1 year 6 months)
Baku, Azerbaijan
• Prepared the monthly card spending report for the retail banking team, covering more than 40 branches and three customer segments.
• Cleaned and documented the customer master table with the data engineering team.

Analytics Intern
June 2022 - August 2022 (3 months)
Supported the analytics team with data checks and ad hoc Excel reports.

Caspian Retail Group

Customer Insights Assistant
January 2021 - May 2022 (1 year 5 months)
Baku, Azerbaijan
Collected store feedback, maintained the customer survey database and prepared the quarterly summary for the marketing manager. Automated the weekly sales report in Excel, which became the reason I moved into analytics.

Self-employed

Data Visualisation Freelancer
2019 - 2020 (1 year)
Designed charts and simple dashboards for two small local businesses.

Education

Azerbaijan State University of Economics (UNEC)
Bachelor's degree, Finance · (2017 - 2021)

Coursera
Data Science Specialization

Code Academy
Certificate, Front-End Web Development and Responsive Design for Beginners · (2023)
